

Oumayma Oumouhou

oumouhou.oumayma.19@gmail.com | github.com/oumaymaeddy | Ottawa, ON | Bilingual (English/French)

SUMMARY

Bilingual (English/French) Junior Software Developer with a DEC in Computer Engineering Technology from Collège La Cité (2025). Skilled in designing, developing, testing, and maintaining software applications using Python, JavaScript, Java, ReactJS, Node.js, SQL, and REST APIs. Hands-on experience building full-stack, distributed, and machine learning applications through academic and personal projects. Strong analytical, problem-solving, and communication skills with a passion for creating innovative software solutions.

EDUCATION

Collège La Cité Ottawa, ON
DEC – Computer Engineering Technology, Graduated with Distinction., Coursework: Software Development, Databases, Networking, Web Development, Software Engineering, Object-Oriented Programming. 2022 – 2025

University of Ottawa
Bachelor of Applied Science – Software Engineering Starting Fall 2026

EXPERIENCE

Specialized Education Technician (TES) 2022 – 2023
École secondaire de l'Île Gatineau, QC

- Assessed individual needs and implemented personalized support plans.
- Maintained detailed documentation and prepared progress reports.
- Collaborated with multidisciplinary teams to support student success.
- Developed strong communication, organization, and problem-solving skills.

Grocery Clerk 2021 – 2022
Walmart Canada Gatineau, QC

- Provided customer service in a fast-paced retail environment.
- Managed inventory and maintained product organization.
- Demonstrated teamwork, reliability, and attention to detail.
- Assisted customers while maintaining operational efficiency.

PROJECTS

Real-Time Multiplayer Quiz Game | ReactJS · Node.js · Socket.IO · MongoDB

- Developed a real-time multiplayer quiz application supporting simultaneous player participation.
- Implemented Socket.IO communication to synchronize questions and player responses in real time.
- Built backend logic to calculate reaction times and identify the fastest correct participant.
- Integrated MongoDB for storing questions, player information, and game results.

Full-Stack Social Media Application | Python · Django · ReactJS · PostgreSQL

- Developed a full-stack social media platform with secure JWT authentication and user management.
- Built RESTful APIs using Django REST Framework and integrated them with a ReactJS frontend.
- Implemented CRUD operations, database management, and responsive user interfaces.
- Developed and tested application features using pytest and maintained technical documentation.

Distributed SOAP Services Application | Java · Spring Boot · SOAP · Node.js · Next.js

- Developed a distributed application using Spring Boot SOAP web services and a Next.js frontend.
- Implemented SOAP endpoints to retrieve and process country information.

- Built a Node.js service layer to consume SOAP services and expose data to the web client.
- Demonstrated understanding of distributed systems, service-oriented architecture, and API integration.

PrediSanté – AI Disease Prediction Application | Python · Scikit-learn · Machine Learning

- Developed a supervised machine learning model to predict disease likelihood based on user-provided data.
- Performed data preprocessing, model training, and model evaluation using performance metrics.
- Applied machine learning techniques to solve a real-world healthcare-related problem.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, Java, C#

Frameworks & Libraries: ReactJS, Node.js, Express.js, Django, Django REST Framework, Spring Boot

Databases: PostgreSQL, MongoDB, SQLite

Tools & Technologies: Git, GitHub, Docker, REST APIs, SOAP Web Services, VS Code, CI/CD

CERTIFICATIONS

Fundamentals of DevOps – Educative.io (2025)

Fundamentals of Kubernetes – Educative.io (2025)
